PREFACE

This catalog is a compilation of up-to-date information about Federal Programs currently available to support Community Education related activities. The information was developed in cooperation with the directors and staff members of the Federal Programs and contains the most current information available.

The information herein is presented for each Federal Program and includes the following:

1. Program Title
2. Headquarters Office, Address and Phone Number
3. A List of Regional Offices, where applicable
4. Where Guidelines may be obtained
5. The Primary Purpose of the Grant
6. The Target Population, including:
    a. Applicant
    b. Beneficiary
7. Brief descriptions of the Proposal and Grantee Funded
8. Financial Information, including:
    a. Federal Funds available in 1977
    b. Estimated Funds available in 1978
9. The Expiration Date of Legislation
10. The Type of Grant (Formula, Discretionary or Other)
11. Restrictions
12. Additional Information that may be beneficial to the Applicant
13. Suggestions for Application to Community Education

Programs include two basic types of grants, formula and discretionary. Formula grants include those grants where funds are distributed according to a formula outlined in the law (often apportioned by population or other community characteristic). That formula is specified by the law. Discretionary grants are also called project grants. The law states that the Commissioner of Education distributes these funds at his own discretion.

The "Suggestions for Application to Community Education" section is not intended to be all inclusive. Rather, it offers brief ideas of a few ways that a community educator might make use of the program.

Users of this catalog are advised to request guidelines from the appropriate regional or Federal office before designing a proposal. The purpose, applicant, beneficiary, availability or any of several crucial factors may have changed since this catalog was developed.

Basic information on the programs included in this catalog may be found in the Catalog of Federal Domestic Assistance, which contains a summary of programs available from every Federal agency. Although it is not necessary to purchase this volume to apply for programs, individuals may do so by writing to: Superintendent of Documents, Catalog of Federal and Domestic Assistance, U. S. Government Printing Office, Washington, D. C. 20402.

It is expected that this catalog will be used by community education coordinators, school administrators, university and state department community education personnel and others involved in planning, implementing and expanding community education related activities. Programs are included which provide help with a large number of community needs. Some useful ideas are suggested for the user; creative exploration of the programs presented herein should significantly increase the potential of these programs.

FEDERAL PROGRAMS
RELATED TO COMMUNITY EDUCATION

FEDERAL CATALOG #: 10.553

PROGRAM TITLE: SCHOOL BREAKFAST PROGRAM

HEADQUARTERS OFFICE: William Boling, Director, Child Nutrition Division, Food and Nutrition Service, U. S. Department of Agriculture, Washington, D. C., 20250. Phone: (202) 447-8130

REGIONAL OFFICE: Yes (See Appendix)

GUIDELINES OBTAINED FROM: Headquarters Office and Regional Office

PRIMARY PURPOSE OF THE GRANT: To provide nutritionally adequate breakfasts for school-age children through food donations and cash grants.

APPLICANT: All schools, public and private (non-profit). Preference to low socio-economic areas, areas of low income, areas where there are long distances to school and schools where special need exists for improving nutrition.

BENEFICIARY: All youngsters in school are eligible. Cost of breakfast is based on ability to pay; free to those who qualify. All schools regardless of economic conditions are eligible.

TYPICAL PROPOSAL/GRANTEE FUNDED: Programs in areas where adequate diet or nutrition is lacking, where large numbers of working mothers in low-income families exist and in rural areas where long distances must be traveled.

FINANCIAL INFORMATION:

AVAILABLE FEDERAL FUNDS 1977: $116,500,000

ESTIMATED 1978: $116,500,000

EXPIRATION DATE OF LEGISLATION: Permanent (DATE)

TYPE OF GRANT: FORMULA & DISCRETIONARY

OTHER PERTINENT INFORMATION: Local grants are dependent upon the economic need of the residents.

RESTRICTIONS: Only public and non-profit private schools are eligible.

ADDITIONAL INFORMATION: N/A

SUGGESTIONS FOR APPLICATION TO COMMUNITY EDUCATION: The program could be applied to community schools where there exists a need for breakfast programs. It could also be used in schools in which there is a large number of working mothers, where children must travel long distances to school or where inadequate nutrition seems to exist. Breakfasts could be provided for children who typically do not have a nutritional breakfast before going to school in the morning. Good public relations with teachers might result; students who have had a good breakfast might be more alert and better able to participate in classroom activities. Involvement of parents in helping with the program might improve community relations and reinforce the need for sound nutritional practices in the community.
